<b>1.1</b>	<b>State housing strategy to include the development and retention of affordable housing</b>		
1.1.1	Ensure the State Housing Strategy includes proposals for increasing the supply of affordable housing.	<p><i>Housing Strategy WA</i> will be put to consultation by October 2002.</p> <p>The needs of Indigenous people, CALD and people with disabilities will be given a high priority.</p>	<p>Department of Housing and Works (DHW)</p> <p>The loss in the supply of affordable housing for households in the lower two income quintiles has been identified as a major issue in the development of a <i>Housing Strategy WA</i>. <b>The draft strategy is expected to be released for community consultation in September 2004.</b></p> <p>In April 2003, Housing Ministers agreed to the development of a National Affordable Housing Project to "promote a national, strategic, integrated and long-term vision for affordable housing in Australia through a comprehensive approach by all levels of government". Housing officials have been working on assessing policy levers that can best be used to increase the supply of affordable housing for people in the lowest 40% of income distribution. Housing Ministers will meet later in 2004 to consider the work completed by housing officials to develop a national approach to affordable housing.</p> <p>The Department of Housing and Works is looking at the feasibility of introducing a not-for-profit charitable housing company to increase affordable housing for low to moderate income earners.</p>

1.1.2	Ensure the State Housing Strategy includes a continuum of housing types in all locations to promote community sustainability.	The Housing Strategy will address needs in rural and remote areas as well as metropolitan. It will encourage construction that uses sustainability principles. <i>WACOSS Housing and Sustainable Communities Indicators</i> will be used. The <i>New Living Program</i> will continue.	Department of Housing and Works (DHW)  <i>Housing Strategy WA</i> will provide strategies to provide a range of housing options to meet our future housing needs over the next 30 years. Rural and remote housing needs will also be recognised in the development of the housing strategy.  The draft strategy will now be released to the public in <b>September 2004</b> .
1.1.3	On State owned land sold for redevelopment for housing a minimum of 10% to be allocated to either increase additional affordable housing on the existing site or set aside for affordable housing in alternative locations.	This recommendation will be forwarded to the people working on the development of the State Housing Strategy for their consideration and action.	Department of Housing and Works (DHW)  The <i>Housing Strategy WA</i> will make a recommendation on this matter, however its implementation is subject to gaining the cooperation of other agencies with identifiable surplus land.  An interdepartmental committee, established by the Department of the Premier and Cabinet to dispose of surplus government property assets, supports the principle underlying this recommendation. Its application warrants consideration on a site-specific basis. The DHW is progressively negotiating arrangements with various government agencies in respect to the allocation of land for affordable housing. Agreements have been reached with the East Perth Redevelopment Authority and the Subiaco Redevelopment Authority. Negotiations are under way with LandCorp, the Department of Education, the Department of Health and the Western Australian Government Railways Commission.

1.1.3	Continued		Department of Housing and Works (DHW)  DHW has established jointly with the Department of Planning and Infrastructure (DPI), an Affordable Housing Working Group to develop ways of increasing the supply of affordable housing. Membership of the group consists of DHW, DPI, LandCorp, the Western Australian Local Government Association (WALGA) and the Department of Local Government and Regional Development (DLGRD). The group will develop options for increasing the supply of affordable housing and feed them into the development of the draft Housing Strategy WA. The outcomes of the Dialogue with the City will also be used to inform the development of strategies to increase the level of affordable housing in WA that are acceptable to the community.  See 1.1.1

<b>1.2</b>	<b>Increase Government funding for social housing</b>		
1.2.1	The Taskforce considers that a key underlying principle of the Commonwealth State Housing Agreement (CSHA) is to have a mandate to address homelessness.	When negotiating the next <i>Commonwealth State Housing Agreement</i> , the Government will ensure that all groups in society, including people who are homeless or at risk of becoming homeless, will have their housing needs addressed.	Department of Housing and Works (DHW)  <b>Completed:</b> All States/Territories have now signed the new multilateral housing agreement. The guiding principles for the new CSHA ensure that social housing continues to be targeted to all vulnerable groups in society.
1.2.2	The Taskforce supports the retention and enhancement of the CHSA with a clear focus on homelessness.	To give certainty to the States on future funding, all parties are seeking to finalise a new Commonwealth State Housing Agreement by July 2002.	Department of Housing and Works (DHW)  <b>Completed:</b> All States/Territories have now signed the new multilateral housing agreement.
1.2.3	Injection of Commonwealth funds to maintain and increase current social housing and stock levels.	Increased funding from the Commonwealth will be sought to increase the amount of social housing that is affordable for low-income households. Any increase from the Commonwealth will be matched by the State.	Department of Housing and Works (DHW)  The Commonwealth's offer included indexation of <i>Commonwealth State Housing Agreement</i> grants from the second year of the five-year agreement but continues to apply an efficiency dividend and does not include any more GST compensation.

1.2.5	The State to negotiate with the Commonwealth for an increase in funding for Aboriginal housing.	The State is also negotiating an innovative bi-lateral housing infrastructure agreement with Commonwealth through ATSIC worth \$80m. It is expected that agreement will be reached for a 1 July 2002 start.	<p>Department of Housing and Works (DHW)                      Aboriginal and Torres Strait Islander Commission (ATSIC)</p> <p>The State Government has signed a Housing and Infrastructure Agreement with the Commonwealth and ATSIC which commits the parties to the pooling of funds to be administered by the DHW Aboriginal Housing and Infrastructure Directorate (AHID) from July 2002 to June 2007.</p> <p>State Treasury has increased its annual funding commitment from \$13.5M per year to \$17M per year for the term of the Agreement. This money will be included in the pool of funds, to be administered by the AHID, and applied under the Indigenous Housing Agreement to improve housing and infrastructure for Aboriginal People.</p> <p>Through the Commonwealth State Housing Agreement (CSHA), the tied Aboriginal Rental Housing Program (ARHP) funds will now be indexed to the CPI.</p> <p>Under the renegotiated CSHA, the Commonwealth is reviewing ARHP funding. The State has made a formal submission to the ARHP review recommending changes to the formula for distributing funds to recognise the extra costs associated with the remoteness of WA.</p> <p><b>The Commonwealth Department of Family and Children's Services has completed the review and the recommendations are with their Minister.</b></p>

1.2.6	Local Government to be involved in a three way partnership with State and Commonwealth Government in negotiating CSHA.	The State Government will ask the Commonwealth to invite Local Government to participate in the Commonwealth State Housing Agreement negotiations.	Department of Housing and Works (DHW)  The negotiation process meant that there was no time appropriate to raise the issue of including local government in a three-way partnership for a housing agreement that is between the Commonwealth and States.  Local government through the WA Local Government Association will be involved by DHW in the development of Housing Strategy WA, including initiatives to increase the supply of affordable housing in WA.

The survey asks housing providers to identify their tenant profile. It is estimated 30% of all community housing properties house Indigenous people. However it should be noted that that this figure includes Crisis Accommodation (CAP) properties which are occupied by a significant number of Indigenous persons and the figure in generic long-term community housing accommodation would be lower.</p> <p>The 2004/05 funding round for the Crisis Accommodation and Joint Venture Housing Programs identifies Indigenous clients as a priority target Group for housing assistance.</p>

1.5.2	The State to negotiate with the Commonwealth to have the level of income support paid to a young person living independently raised to the adult level.	And 1.5.1. Through the Community Services Ministers Advisory Council, there are ongoing discussions with other states, Territories and the Commonwealth. A recent development has been the establishment of a Working Group to examine the impact of the Commonwealth Strategy Australians Working Together. DCD will raise these issues in these forums and directly with the Commonwealth Minister for Family and Community Services.	Department of the Premier and Cabinet, (DPC) and Department for Community Development (DCD)  DCD will continue to raise this issue in the Community Services Ministers Advisory Committee (CSMAC) Welfare Reform Working Group.
1.5.3	The State to ask the Commonwealth to urgently address the negative impact of the practice of 'breaching' on creating homelessness.	The State Government will use the current mechanisms for Commonwealth State discussions to raise issues where vulnerable people are put at housing risk due to income support penalties.	Department of the Premier and Cabinet, (DPC) and Department for Community Development (DCD)  DCD has raised this issue at meetings with Centrelink staff.  Centrelink have developed a <i>Breaching Decision Improvement Plan</i> to develop and test changes to the breaching policy. Breaches cannot be imposed without contact with the customer. Centrelink continues with the strategies identified in the Breaching Decision Improvement Plan. There also continues to be regular monitoring of breaches occurring for particularly vulnerable customers such as Indigenous people and homeless young people.

2.4.4.2	50% bad debt discount scheme implemented to ensure connection of essential services where a person is moving from homelessness into accommodation.	<p>For full text see The Government's Response to the Report of the Homelessness Taskforce: <u>'Putting People First'</u></p> <p>Western Power, AlintaGas and the Water Corporation already provide customers who are having difficulty in paying current bills with flexible payment options. For example, bills can be paid off in weekly, fortnightly or monthly instalments depending on the financial situation of the customer.</p> <p>Western Power contributes \$30 000 annually to an emergency relief fund administered by WACOSS to help people in financial difficulties, such as being unable to pay their electricity bill. An informal arrangement between Western Power and the DHW Homeless Helpline is already in place for assisting people into emergency housing.</p> <p>Utilities that are Government owned are expected to operate under commercial principles. Any debt discount scheme would have to be implemented as a community service obligation. Furthermore, not all utilities are Government owned. AlintaGas has been privatised and, with the planned introduction of full retail contestability in the gas market, additional non-Government retailers are expected to enter the market. Extension of this form of contestability to the electricity market is being considered. The Office of Energy proposes that a debt discount scheme would need to be funded by Government and made available to customers of all utility service providers.</p>	<p><b>The Government made no commitment to this recommendation. However the following is noted:</b></p> <p>Western Power has an informal arrangement with the Homeless Helpline to assist previously homeless people to have power connected speedily to their new accommodation. Assistance is considered on a case by case basis, however arrangements are still required for the repayment of past debts. To date Western Power has reported little demand for this service.</p> <p>Western Power has also increased its contribution to the Power Assist program from \$30,000 pa to \$50,000 pa. These funds are distributed to community agencies to provide debt relief of up to \$100 per customer to assist existing customers who have been disconnected or are about to be disconnected.</p> <p>The Homeless Helpline and Department for Community Development encourage clients to contact Centrelink to access their Centrepay service for the payment of rent and utilities</p>

<b>3.2</b>	<b>Legislation</b>		
3.2.1	Investigate the merit of drafting legislation to ensure accommodation and support services for people who are homeless.	The Government will be investigating the merits of legislation in addressing issues of social inclusion including issues of homelessness.	<p>Department of the Premier and Cabinet (DPC)</p> <p>Officers from Department of Housing and Works (DHW) and Department for Community Development (DCD) met and agreed that better links needed to be established between relevant existing Commonwealth/State agreements. This was considered during the review of the Commonwealth/State Housing Agreement (CSHA).</p> <p>DCD advises the Supported Accommodation Assistance Program (SAAP) National Co-ordination and Development Committee is investigating "International and National Trends in Homelessness". This project is examining policy and legislation approaches. The final report is nearing completion.</p> <p>A new section in the 2003 CSHA requires the Commonwealth, States and Territories to strengthen the links between housing and services with the aim of improving housing outcomes for people in most need. This includes "positively influencing other Commonwealth State agreements" and mentions the CSTDA, SAAP, Home and Community Care Program and the Australian Health Care Agreements.</p>

<b>3.3</b>	<b>Community Education</b>		
3.3.1	Develop an information strategy to encourage debate and discussion on issues around homelessness.	With WACOSS and the community, the Government will continue to ensure a high level of public debate and discussion around issues affecting the most vulnerable people in our community.	<p>Department of the Premier and Cabinet (DPC)</p> <p>Government agencies have participated in the following initiatives which will promote public debate on homelessness:</p> <ul style="list-style-type: none"> <li>• April 2003 – the Government presented a paper on the State Homelessness Strategy at the National Homelessness Conference. See the homeless web site under “what’s new” for a copy.</li> <li>• 17 October 2003 – International Day for the Eradication of Poverty. DHW coordinated an information services expo titled “For Richer or Poorer, helping make ends meet” and approximately 30 agencies attended. Agencies involved provided information on services in financial counselling, legal advice, income support, community services, employment, and housing/tenancy.</li> </ul> <p>Although there have been some activities aimed at raising public awareness about the issue of homelessness, there is room for more work in this area. In 2004. DCD will continue to work with WACOSS to progress opportunities to increase community awareness of homelessness within our community.</p> <p>Centrelink, DCD, DHW, Shelter WA, WACOSS and City of Perth have met to consider strategies to promote awareness of programs and services to the community and other agencies that assist vulnerable people.</p>

<b>3.4</b>	<b>Working Together</b>		
3.4.1	State Government agencies develop better ways of collecting data on people who are homeless.	<p>All State and Territory Governments are supporting the work of analysing the 2001 Census focusing on homelessness.</p> <p>This information will assist Government agencies in developing better ways of understanding the number of people they work with who are homeless.</p> <p>Western Australian Government agencies will be cognizant of the need to include indicators of homelessness when redeveloping current client data collection methods.</p>	<p>Department for Community Development (DCD)</p> <p>Several reports have been produced which outline the scale of homelessness for different populations in Western Australia:</p> <ul style="list-style-type: none"> <li>• The first part of the 2001 census analysis produced the report - <i>Youth Homelessness in 2001</i>.</li> <li>• A second report "Homeless Careers" was published in May 2003. The reports are available at the following site:  <a href="http://www.salvos.org.au/salvos/new/me.get?site.home">www.salvos.org.au/salvos/new/me.get?site.home</a> Under Publications/ Social Issues/Homelessness</li> <li>• The <i>Counting the Homeless 2001</i> report was released in November 2003. It replicated the analysis of the 1996 ABS Census figures provided in the first Counting the Homeless report. The number of homeless people in all categories remained relatively stable across the two reporting periods. The close consistency of the data between the two periods (1996 and 2001) indicates that the counting was accurate and reliable. The figures indicated the homeless population (across the three categories, primary, secondary and tertiary) in Australia is around 100,000 and in Western Australia around 12,000 on any one night.</li> </ul>

3.4.3	Develop a method of centralising funding for new initiatives arising from the Taskforce across Government portfolios.	The Government is keen to develop better ways of funding whole of Government initiatives and will continue to investigate opportunities.	<p>Department of the Premier and Cabinet (DPC)</p> <p>Models of joined-up budgeting are currently being explored in a project being led by the DPC Policy Division. This issue has acquired greater urgency as a consequence of the findings of the Gordon Inquiry and the Functional Review Taskforce. Consideration is being given to developing a range of multi-lateral budget initiatives.</p> <p>The Government has established the Cabinet Standing Committee on Social Policy, which is now underpinned by the Human Services Directors General Group. The Working Party on Funding Agreements with Not-for-profit Organisations has completed and released a consultation report on proposed new arrangements. It is anticipated these new arrangements will come into effect from 1 July 2002.
